Board of Directors  
Panhandle Regional Planning Commission

Dear Board Members:

The bylaws of the Panhandle Regional Planning Commission call for the staff to develop and submit a proposed work program and budget to the Board of Directors during the fourth quarter of each fiscal year. The Board of Directors reviews the document and recommends it, with any necessary amendments, to the general membership. Each annual work program and budget is formally adopted by the general membership of the organization at the Planning Commission's annual meeting.

The work program and budget document is designed to consolidate and present Planning Commission goals, project objectives, work tasks, performance measures, implementation schedules, human resource requirements and budget information. Although the document contains a great deal of information, it is important to note that more detailed work program and budget documentation is contained in each of the dozens of grants, contracts, and agreements entered into by the Planning Commission with federal agencies, state agencies, local governments, local special districts, private foundations and other funding partners.

The budget portion of this document is unlike the traditional local governmental budget in several respects. The Planning Commission has no taxing or oversight authority therefore, the budgetary process is not one which culminates in an appropriation bill or an ordinance enacted into law. Therefore, the budget is not technically defined as a "legally adopted budget".

Secondly, unlike a more typical local government budget, it is difficult to accurately predict revenues and expenditures for a twelve-month period. The Planning Commission's budget document is actually a compilation of the individual budgets for the various projects which the Commission is operating at any point in time. The individual projects are funded by multiple agencies (both federal and state) and with locally generated funds. Each individual project operates within its own fiscal year. Many of these projects are routinely subject to funding changes and additional activities are often funded during the course of the year. These facts make it difficult for the Planning Commission to prepare a single agency-wide budget which is not subject to change as the year progresses. Therefore, a budget amendment could be necessary during the course of the next twelve months.

Submitted herewith for your consideration, is the Panhandle Regional Planning Commission's 2018 Strategic Work Program and Budget as developed by staff. The 2018 Strategic Work Program and Budget includes programs related to aging, criminal justice, dispute resolution, economic development, local government services, regional 9-1-1 network activities, regional emergency preparedness, regional services, regional transportation planning, water planning, solid waste management and workforce development. The expenditures necessary to support these programs total \$19,573,686. Anticipated revenues total \$19,627,685.

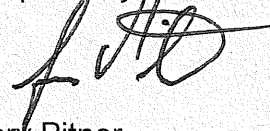

The anticipated revenues in the 2018 Strategic Work Program and Budget reflect a \$1,058,273 or a 5.1% decrease from corresponding 2017 figures. The decreased funding is primarily the result of decreases in the Regional 9-1-1 Network, Solid Waste Management and Workforce Development programs partially offset by an increase in funding for Regional Emergency Preparedness, Regional Transportation Planning and Regional Water Planning.

From a human resources standpoint, the 2018 Strategic Work Program and Budget calls for the number of full-time equivalent employees to be 40.1 persons. This represents a decrease of 1.95 persons from the 2017 budget year.

The proposed Strategic Work Program and Budget allows for a 1% across the board increase to the Planning Commission's Annual Salary Table for General Classified Positions. The Budget also provides a merit adjustment pool (equivalent to 2.5% of projected personnel expenditures) which would allow the Executive Director discretion to grant merit salary increases to individual employees if deemed appropriate based upon job performance evaluations.

I am pleased to present the Board with the 2018 Strategic Work Program and Budget which allows the Planning Commission to aggressively conduct a wide range of programs and projects benefiting the citizens of the Texas Panhandle. These activities can be achieved with the membership dues remaining at 8.5¢ per capita. Should you have any questions regarding this document or any of the initiatives proposed herein, please call.

Respectfully submitted,

Gary Pitner  
Executive Director

## CERTIFICATE OF INDIRECT COSTS

This is to certify that I have reviewed the indirect cost rate proposal submitted herewith and to the best of my knowledge and belief:

1. All costs included in this proposal dated August 18, 2017 to establish billing or final indirect costs rates for fiscal year ended September 30, 2018 are allowable in accordance with the requirements of the Federal awards and state awards to which they apply and the provisions of this 45 CFR part 75. Unallowable costs have been adjusted for in allocating costs as indicated in the indirect cost proposal.
2. All costs included in this proposal are properly allocable to Federal awards and state awards on the basis of a beneficial or causal relationship between the expenses incurred and the agreements to which they are allocated in accordance with applicable requirements. Further, the same costs that have been treated as indirect costs have not been claimed as direct costs. Similar types of costs have been accounted for consistently and the Federal Government and State Government will be notified of any accounting changes that would affect the predetermined rate.

I declare that the foregoing is true and correct.
